

Australian/New Zealand Standard™

**Household and similar electrical
appliances—Safety**

**Part 2.79: Particular requirements for
high pressure cleaners and steam
cleaners**

AS/NZS 60335.2.79:2002

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL-002, Safety of Household and Similar Electrical Appliances and Small Power Transformers. It was approved on behalf of the Council of Standards Australia on 8 October 2002 and on behalf of the Council of Standards New Zealand on 2 October 2002.

This Standard was published on 22 November 2002.

The following are represented on Committee EL-002:

Association of Certification Bodies
Australian Chamber of Commerce and Industry
Australian Electrical and Electronic Manufacturers Association
Canterbury Manufacturers Association New Zealand
Consumer Electronic Suppliers Association, Australia
Electrical regulatory authorities, Australia
Electrical test laboratories
Electrical consultants
Electricity Supply Association of Australia
Institution of Engineers Australia
Metal Trades Industries Association of Australia
Ministry of Consumer Affairs, New Zealand

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

This Standard was issued in draft form for comment as DR 02923.

Australian/New Zealand Standard™

Household and similar electrical appliances—Safety

Part 2.79: Particular requirements for high pressure cleaners and steam cleaners

First published as AS/NZS 3350.2.79:1996.
Second edition 2001.
Jointly revised and redesignated AS/NZS 60335.2.79:2002.
Reissued incorporating Amendment No. 1 (November 2005).
Reissued incorporating Amendment No. 1 (May 2008).

CONTENTS

FOREWORD.....	4
INTRODUCTION.....	6
1 Scope	7
2 Normative references	8
3 Definitions	8
4 General requirement.....	10
5 General conditions for the tests	11
6 Classification.....	11
7 Marking and instructions	12
8 Protection against access to live parts	16
9 Starting of motor-operated appliances.....	16
10 Power input and current.....	16
11 Heating	16
12 Void	17
13 Leakage current and electric strength at operating temperature	17
14 Transient overvoltages	17
15 Moisture resistance	18
16 Leakage current and electric strength	19
17 Overload protection of transformers and associated circuits	19
18 Endurance.....	19
19 Abnormal operation	20
20 Stability and mechanical hazards	23
21 Mechanical strength	24
22 Construction.....	25
23 Internal wiring.....	28
24 Components	28
25 Supply connection and external flexible cords	28
26 Terminals for external conductors	29
27 Provision for earthing.....	30
28 Screws and connections	30
29 Clearances, creepage distances and solid insulation	30
30 Resistance to heat and fire	30
31 Resistance to rusting	30
32 Radiation, toxicity and similar hazards	30

Annexes	35
Annex AA (normative) Requirements to avoid backsiphonage	35
Annex BB (normative) Analysis method for determining the necessary safety device to prevent backsiphonage	41
Annex ZZ (informative) Variations to IEC 60335-2-79 Ed 2.2 for application in Australia and New Zealand	44
Bibliography	44
Figure 101 – Warning symbol.....	31
Figure 102 – Impact test apparatus	32
Figure 103 – Reactions on handle	33
Figure 104 – Warning symbol: Appliance not suitable for connection to the potable water mains	34
