

Australian Standard<sup>®</sup>

**Commercial propane and commercial  
butane for heating purposes**

This Australian Standard® was prepared by Committee CH-038, Liquefied Petroleum Gas—Composition. It was approved on behalf of the Council of Standards Australia on 14 August 2006.  
This Standard was published on 1 September 2006.

---

The following are represented on Committee CH-038:

- Gas Appliance Manufacturers Association of Australia
  - Gas Technical Regulators Committee
  - LPG Australia
  - Testing Interests Australia
- 

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through public comment period.

---

### **Keeping Standards up-to-date**

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting **[www.standards.org.au](http://www.standards.org.au)**

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at **[mail@standards.org.au](mailto:mail@standards.org.au)**, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.
