

Australian/New Zealand Standard™

**Household and similar electrical
appliances—Safety**

**Part 2.27: Particular requirements for
appliances for skin exposure to
ultraviolet and infrared radiation
(IEC 60335-2-27 Ed 5.1, MOD)**

AS/NZS 60335.2.27:2010

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL-002, Safety of Household and Similar Electrical Appliances and Small Power Transformers. It was approved on behalf of the Council of Standards Australia on 10 September 2010 and on behalf of the Council of Standards New Zealand on 10 September 2010.

This Standard was published on 29 October 2010.

The following are represented on Committee EL-002:

- A1 | Australian Industry Group
 - A1 | National Retailers Association (Australia)
 - Business New Zealand
 - Consumer Electronic Suppliers Association, Australia
 - Consumers' Federation of Australia
 - Electrical regulatory authorities, Australia
 - Electrical Compliance Testing Association
 - Electrical consultants
 - Engineers Australia
 - A1 | Testing Interests New Zealand
 - WorkSafe New Zealand
 - New Zealand Electric Fence Energizer Manufacturers' Standards Group
-

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.saiglobal.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

This Standard was issued in draft form for comment as DR 10904.

Australian/New Zealand Standard™

Household and similar electrical appliances—Safety

Part 2.27: Particular requirements for appliances for skin exposure to ultraviolet and infrared radiation (IEC 60335-2-27 Ed 5.1, MOD)

Originated in Australia in part as AS 3315—1992.
Originated in New Zealand as NZS 6327:1992.
Jointly revised and redesignated AS/NZS 3350.2.27:1996.
Jointly revised and redesignated AS/NZS 60335.2.27:2004.
Jointly revised and redesignated as AS/NZS 60335.2.27:2010.
Reissued incorporating Amendment No. 1 (June 2014).
Reissued incorporating Amendment No. 2 (March 2015).

STANDARDS AUSTRALIA/STANDARDS NEW ZEALAND

AS/NZS 60335.2.27:2010

HOUSEHOLD AND SIMILAR ELECTRICAL APPLIANCES –
SAFETY –Part 2.27: Particular requirements for appliances for
skin exposure to ultraviolet and infrared radiation

Foreword

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee EL-002- Safety of Household and Similar Electrical Appliances and Small Power Transformers to supersede AS/NZS 60335.2.27:2004 three years from the date of publication. During this period it is anticipated that regulatory authorities will approve appliances for skin exposure to ultraviolet and infrared radiation to either standard

The objective of this Standard is to provide manufacturers, designers, regulatory authorities, testing laboratories and similar organizations with safety requirements designed to give the user protection against hazards that might occur during normal operation and abnormal operation of the appliance and which may be used as the basis for approval for sale or for connection to the electricity supply mains in Australia and New Zealand

The text of IEC 60335-2-27 Ed 5, prepared by IEC Technical Committee 61, was submitted to the Standards Australia/Standards New Zealand Combined Procedure (dual public comment and committee vote) for adoption of the IEC standard as a Standards Australia/Standards New Zealand joint standard.

A1 | The text of IEC 60335-2-27 Ed 5 amendment 1, prepared by IEC Technical Committee TC 61, was submitted to the Standards Australia/Standards New Zealand Combine Procedure (dual public comment and committee vote) for adoption as an amendment to the Standards Australia/Standards New Zealand joint standard AS/NZS 60335.2.27:2010.

A1
+
A2 | This Standard incorporates its Amendment No. 1 (June 2014) and Amendment No. 2 (March 2015). The changes required by the amendment are indicated in the text by a marginal bar and amendment number against the part affected. The application date of the changes introduced by Amendment 1 is 31 May 2016. Up until this date it is anticipated that regulatory authorities will approve appliances for skin exposure to ultraviolet and infrared radiation to AS/NZS 60335.2.27:2010 or AS/NZS 60335.2.27:2010 + A1:2014.

A1
DOA
27/6/16 | This Standard is an adoption with national modifications of the fifth edition of IEC 60335-2-27, *Household and similar electrical appliances – safety – Part 2-27: Particular requirements for appliances for skin exposure to ultraviolet and infrared radiation* and its amendment 1 (2014). It has been varied as indicated to take account of Australian and New Zealand conditions.

This part 2 has to be used in conjunction with the latest edition of AS/NZS 60335.1 *Household and similar electrical appliances – Safety – Part 1: General requirements* and its Amendments. It was established on the basis of AS/NZS 60335.1:2002.

The principal changes in this edition as compared with the 2004 edition of AS/NZS 60335.2.27 are as follows (minor changes are not listed):

- clarification of the radiation measurement procedure (32.101);
- additional limits placed on appliances for commercial use (32.101)
- guidelines for an exposure time schedule (Annex DD).

This part 2 supplements or modifies the corresponding clauses of AS/NZS 60335.1 so as to convert it into the Australian/New Zealand Standard: Safety requirements for appliances for skin exposure to ultraviolet and infrared radiation.

When a particular subclause of Part 1 is not mentioned in this part 2, that subclause applies as far as is reasonable. When this standard states "addition", "modification" or "replacement", the relevant text of Part 1 is to be adapted accordingly.

NOTE 1 The following numbering system is used:

- subclauses, tables and figures that are numbered starting from 101 are additional to those in Part 1;
- unless notes are in a new subclause or involve notes in Part 1, they are numbered starting from 101, including those in a replaced clause or subclause;
- additional annexes are lettered AA, BB, etc.;
- subclauses, notes and annexes that are additional to those in the IEC standard are prefixed with the letters AZ.

NOTE 2 The following print types are used:

- requirements: in roman type;
- *test specifications: in italic type;*
- notes: in small roman type.

Words in **bold** in the text are defined in Clause 3.

p NOTE 3 In this document, p is used in the margin to indicate instructions for preparing a consolidated version.

The essential safety requirements in AS/NZS 3820¹ that could be applicable to requirements for appliances for skin exposure to ultraviolet and infrared radiation are covered by this standard.
