

AS 3869—1991

Australian Standard[®]

**Domestic solid fuel burning
appliances—Specifications**

This Australian Standard was prepared by Committee CS/62, Solid Fuel Burning Appliances. It was approved on behalf of the Council of Standards Australia on 23 November 1990 and published on 28 March 1991.

The following interests are represented on Committee CS/62:

AEC Advisory Committee on Air Quality
Australian Assembly of Fire Authorities
Australian Chamber of Manufactures
Australian Consumers Association
Australian Federation of Consumer Organizations
Australian Fire Protection Association
Australian Mineral Development Laboratories
Australian Retailers Association
Australian Solid Fuel and Wood Heating Association
Australian Uniform Building Regulations Coordinating Council
Business and Consumer Affairs, New South Wales
Confederation of Australian Industry
Department of Environment and Planning, South Australia
Department of Mines and Energy, South Australia
Insurance Council of Australia
Metal Trades Industry Association of Australia
Ministry of Consumer Affairs, Victoria
New Zealand manufacturing interests
Office of Consumer Affairs, Tasmania
University of Tasmania

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 88014.
