Office of Consumer Affairs and Fair Trading Tasmania
Office of Consumer and Business Affairs South Australia
Office of Fair Trading NSW Consumer Protection Agency
Pigment Ecological and Toxicological Technical Committee of Australia
Safekids New Zealand
The Children's Hospital at Westmead
Queensland Health

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

This Standard was issued in draft form for comment as DR 08228.

Australian/New Zealand Standard™

Safety of toys

Part 2: Flammability

Originated in Australia as part of AS 1647—1974.
Previous edition AS/NZS ISO 8124.2:2003.
Second edition 2009.
