

# Surfaces for sports areas — Determination of composition and particle shape of unbound mineral surfaces for outdoor sports areas

The European Standard EN 14955:2005 has the status of a British Standard

ICS 97.220.10

# National foreword

This British Standard is the official English language version of EN 14955:2005.

The UK participation in its preparation was entrusted to Technical Committee PRI/57, Surfaces for sports areas, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.
