Playing field equipment - Football goals - Functional and safety requirements, test methods

National foreword

This British Standard is the UK implementation of EN 748:2013+A1:2018. It supersedes BS EN 748:2013, which is withdrawn.

The start and finish of text introduced or altered by amendment is indicated in the text by tags. Tags indicating changes to CEN text carry the number of the CEN amendment. For example, text altered by CEN amendment 1 is indicated by **A1** **A1**.

Incorrectly used goals can be dangerous, so the use of suitable goals must always be of paramount importance to all organizations and individuals responsible for the provision of goals. To minimize the risk of hazardous goals being used, a series of British (European) Standards have been developed. The standards cover goals used for competition, training and recreational play in indoor and outdoor areas, including sports stadiums, sports grounds, educational establishments, commercial facilities and public recreational spaces. The standards specify the functional and safety requirements for all types of socketed and portable (freestanding) goals.

Details of the various standards and guidance on how to determine what type of goal is most appropriate for any specific venue are given in the National Annex NA at the rear of this standard.

The UK participation in its preparation was entrusted to Technical Committee SW/136/22, Sports, Playground and other Recreational Equipment - Gymnasium and Playing Field Equipment.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
