

Hardware for furniture — Strength and durability of extension elements and their components

ICS 97.140

National foreword

This British Standard is the UK implementation of EN 15338:2007+A1:2010. It supersedes BS EN 15338:2007 which is withdrawn.

The start and finish of text introduced or altered by amendment is indicated in the text by tags. Tags indicating changes to CEN text carry the number of the CEN amendment. For example, text altered by CEN amendment A1 is indicated by **A1** **A1**.

The UK participation in its preparation was entrusted by Technical Committee FW/0, Furniture, to Subcommittee FW/0/1, Common test methods for furniture.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

UK committee FW/0/1 would like to draw the attention of users to the fact that storage furniture fitted with hardware that satisfies the requirements of this standard will not automatically satisfy the requirements of standards specifying requirements for the safety, strength and durability of moving parts of storage furniture. These currently include: EN 14074, EN 14727, EN 14749, ISO 7170, BS 6222-2 and BS 4875-7.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 30 June 2008
