

Diving suits — Part 4: One atmosphere suits (ADS) — Human factors requirements and test methods

The European Standard EN 14225-4:2005 has the status of a
British Standard

ICS 97.220.40

National foreword

This British Standard is the official English language version of EN 14225-4:2005.

The UK as a member of CEN, is obliged to publish EN 14225-4:2005 as a British Standard. However, attention is drawn to the fact that during the development of this European Standard, the UK consistently voted against its approval as a European Standard.

The reason for this disapproval was the committee’s concern that One Atmosphere Suits (ADS) are submersible craft and are legislated under maritime law and resolutions published by the International Maritime Organisation and, in the committee’s opinion, should not be considered Personal Protective Equipment (PPE). The committee would therefore draw the readers’ attention to the fact that current Merchant Shipping Acts and Regulations made under them, and International Maritime Organization Resolutions on submersibles should be consulted prior to applying the content of this standard.

The UK participation in its preparation was entrusted by Technical Committee PH/3, Protective clothing, to Subcommittee PH/3/6 and PH/3/6/2 Buoyancy garments — Diving suits, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 16, an inside back cover and a back cover.

English version

Diving suits - Part 4: One atmosphere suits (ADS) - Human factors requirements and test methods

Vêtements de plongée - Partie 4 : Vêtements de plongée à pression atmosphérique - Exigences relatives aux facteurs humains et méthodes d'essai

Tauchanzüge - Teil 4: Tauchanzüge für normobaren Atemdruck - Anforderungen an die personenbezogenen Faktoren und Prüfverfahren

This European Standard was approved by CEN on 21 April 2005.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
