This document (EN 50229:2015) has been prepared by CLC/TC 59X "Performance of household and similar electrical appliances".

The following dates are fixed:

- latest date by which this document has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2016-06-30
- latest date by which the national standards conflicting with this document have to be withdrawn (dow) 2018-06-30

This document supersedes EN 50229:2007.

The major technical modifications compared to EN 50229:2007 are:

- a) The structure has been revised to assure a better readability.
- b) All references concerning EN 60456:2011 and EN 61121:2013 have been updated.
- c) Precise instruction to determine the load capacity for drying.
- d) Precise instruction of composition of partial loads – Splitting the base load.
- e) Revision of 'Test report – data to be reported' tables.

Introduction of method for additional drying. Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC [and/or CEN] shall not be held responsible for identifying any or all such patent rights.

This document has been prepared under a mandate given to CENELEC by the European Commission and the European Free Trade Association.
