

Performance of filtering respirators

Legal Notice for Standards

Canadian Standards Association (operating as “CSA Group”) develops standards through a consensus standards development process approved by the Standards Council of Canada. This process brings together volunteers representing varied viewpoints and interests to achieve consensus and develop a standard. Although CSA Group administers the process and establishes rules to promote fairness in achieving consensus, it does not independently test, evaluate, or verify the content of standards.

Disclaimer and exclusion of liability

This document is provided without any representations, warranties, or conditions of any kind, express or implied, including, without limitation, implied warranties or conditions concerning this document’s fitness for a particular purpose or use, its merchantability, or its non-infringement of any third party’s intellectual property rights. CSA Group does not warrant the accuracy, completeness, or currency of any of the information published in this document. CSA Group makes no representations or warranties regarding this document’s compliance with any applicable statute, rule, or regulation.

IN NO EVENT SHALL CSA GROUP, ITS VOLUNTEERS, MEMBERS, SUBSIDIARIES, OR AFFILIATED COMPANIES, OR THEIR EMPLOYEES, DIRECTORS, OR OFFICERS, BE LIABLE FOR ANY DIRECT, INDIRECT, OR INCIDENTAL DAMAGES, INJURY, LOSS, COSTS, OR EXPENSES, HOWSOEVER CAUSED, INCLUDING BUT NOT LIMITED TO SPECIAL OR CONSEQUENTIAL DAMAGES, LOST REVENUE, BUSINESS INTERRUPTION, LOST OR DAMAGED DATA, OR ANY OTHER COMMERCIAL OR ECONOMIC LOSS, WHETHER BASED IN CONTRACT, TORT (INCLUDING NEGLIGENCE), OR ANY OTHER THEORY OF LIABILITY, ARISING OUT OF OR RESULTING FROM ACCESS TO OR POSSESSION OR USE OF THIS DOCUMENT, EVEN IF CSA GROUP HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, INJURY, LOSS, COSTS, OR EXPENSES.

In publishing and making this document available, CSA Group is not undertaking to render professional or other services for or on behalf of any person or entity or to perform any duty owed by any person or entity to another person or entity. The information in this document is directed to those who have the appropriate degree of experience to use and apply its contents, and CSA Group accepts no responsibility whatsoever arising in any way from any and all use of or reliance on the information contained in this document.

CSA Group is a private not-for-profit company that publishes voluntary standards and related documents. CSA Group has no power, nor does it undertake, to enforce compliance with the contents of the standards or other documents it publishes.

Intellectual property rights and ownership

As between CSA Group and the users of this document (whether it be in printed or electronic form), CSA Group is the owner, or the authorized licensee, of all works contained herein that are protected by copyright, all trade-marks (except as otherwise noted to the contrary), and all inventions and trade secrets that may be contained in this document, whether or not such inventions and trade secrets are protected by patents and applications for patents. Without limitation, the unauthorized use, modification, copying, or disclosure of this document may violate laws that protect CSA Group’s and/or others’ intellectual property and may give rise to a right in CSA Group and/or others to seek legal redress for such use, modification, copying, or disclosure. To the extent permitted by licence or by law, CSA Group reserves all intellectual property rights in this document.

Patent rights

Attention is drawn to the possibility that some of the elements of this standard may be the subject of patent rights. CSA Group shall not be held responsible for identifying any or all such patent rights. Users of this standard are expressly advised that determination of the validity of any such patent rights is entirely their own responsibility.

Authorized use of this document

This document is being provided by CSA Group for informational and non-commercial use only. The user of this document is authorized to do only the following:

If this document is in electronic form:

- load this document onto a computer for the sole purpose of reviewing it;
- search and browse this document; and
- print this document if it is in PDF format.

Limited copies of this document in print or paper form may be distributed only to persons who are authorized by CSA Group to have such copies, and only if this Legal Notice appears on each such copy.

In addition, users may not and may not permit others to

- alter this document in any way or remove this Legal Notice from the attached standard;
- sell this document without authorization from CSA Group; or
- make an electronic copy of this document.

If you do not agree with any of the terms and conditions contained in this Legal Notice, you may not load or use this document or make any copies of the contents hereof, and if you do make such copies, you are required to destroy them immediately. Use of this document constitutes your acceptance of the terms and conditions of this Legal Notice.

Visit CSA Group's policy on privacy at www.csagroup.org/legal to find out how we protect your personal information.

Canadian Standards Association (operating as “CSA Group”), under whose auspices this National Standard has been produced, was chartered in 1919 and accredited by the Standards Council of Canada to the National Standards system in 1973. It is a not-for-profit, nonstatutory, voluntary membership association engaged in standards development and certification activities.

CSA Group standards reflect a national consensus of producers and users — including manufacturers, consumers, retailers, unions and professional organizations, and governmental agencies. The standards are used widely by industry and commerce and often adopted by municipal, provincial, and federal governments in their regulations, particularly in the fields of health, safety, building and construction, and the environment.

More than 10 000 members indicate their support for CSA Group’s standards development by volunteering their time and skills to Committee work.

CSA Group offers certification and testing services in support of and as an extension to its standards development activities. To ensure the integrity of its certification process, CSA Group regularly and continually audits and inspects products that bear the CSA Group Mark.

In addition to its head office and laboratory complex in Toronto, CSA Group has regional branch offices in major centres across Canada and inspection and testing agencies in fourteen countries. Since 1919, CSA Group has developed the necessary expertise to meet its corporate mission: CSA Group is an independent service organization whose mission is to provide an open and effective forum for activities facilitating the exchange of goods and services through the use of standards, certification and related services to meet national and international needs.

For further information on CSA Group services, write to
CSA Group

Toronto, Ontario, M9W 1R3
Canada

A National Standard of Canada is a standard developed by a Standards Council of Canada (SCC) accredited Standards Development Organization, in compliance with requirements and guidance set out by SCC. More information on National Standards of Canada can be found at www.scc.ca.

SCC is a Crown corporation within the portfolio of Innovation, Science and Economic Development (ISED) Canada. With the goal of enhancing Canada's economic competitiveness and social well-being, SCC leads and facilitates the development and use of national and international standards. SCC also coordinates Canadian participation in standards development, and identifies strategies to advance Canadian standardization efforts.

Accreditation services are provided by SCC to various customers, including product certifiers, testing laboratories, and standards development organizations. A list of SCC programs and accredited bodies is publicly available at www.scc.ca.

Standards Council of Canada
600-55 Metcalfe Street
Ottawa, Ontario, K1P 6L5
Canada

Cette Norme Nationale du Canada n'est disponible qu'en anglais.

Although the intended primary application of this Standard is stated in its Scope, it is important to note that it remains the responsibility of the users to judge its suitability for their particular purpose.

Technical Committee on Selection, Care, and Use of Respirators 4

Subcommittee on Performance of Filtering Respirators 8

Preface 11

0 Introduction 12

0.1 General 12

0.2 Application 12

0.3 Users of this Standard 12

0.4 Overview 12

1 Scope 13

1.1 In scope 13

1.2 Out of scope 13

1.3 Terminology 13

1.4 Units of measure 13

2 Reference publications 13

3 Definitions and abbreviations 15

3.1 Definitions 15

3.2 Abbreviations 16

4 General conditions for requirements and testing 17

4.1 Ambient environment and common conditions 17

4.2 Specific units of measure 17

4.2.1 Concentration 17

4.2.2 Pressure 17

4.3 Ranges and tolerances 17

4.3.1 Expression of tolerances 17

4.3.2 Airflow rate and tolerance 17

4.3.3 Measurement precision 17

4.4 Comparison with US Code of Federal Regulations 42 CFR 84 17

5 Common description, classification, and performance requirements of filtering respirators and components 18

5.1 Descriptions 18

5.1.1 Description by respiratory hazard addressed 18

5.1.2 Description by designated use 18

5.1.3 Description by operating mode 18

5.1.4 Description by filter replaceability 18

5.1.5 Description by respiratory interface 18

5.2 Requirements overview 19

5.3 Respirators — General requirements 19

5.3.1 General construction requirements 19

5.3.2 Wearer compatibility and safety 20

5.3.3	Alternate configurations	20
5.3.4	Additional performance capabilities	21
5.4	Respiratory interfaces	21
5.4.1	General	21
5.4.2	Tight-fitting respiratory interfaces	21
5.4.3	Loose-fitting respiratory interfaces	21
5.5	Integrated eye protection	22
5.6	Fit	22
5.6.1	General	22
5.6.2	Fit test subjects	22
5.6.3	Fit factor requirements	23
5.6.4	Quantitative fit test	24
5.7	Valves	27
5.7.1	General	27
5.7.2	Inhalation valve performance	27
5.7.3	Exhalation valve performance	27
5.8	Filters, General requirements	28
5.8.1	Integrated filters	28
5.8.2	Airflow resistance for replaceable filters used in parallel	28
5.9	Securing mechanisms	29
5.9.1	Securing of respiratory interface	29
5.9.2	Securing of components apart from respiratory interface	30
5.10	Hoses	30
5.11	Hydration devices	30
5.11.1	General	30
5.11.2	Leakage	30
5.11.3	Usage and flow rate	31
5.12	Protection prior to use	31
6	Non-powered air-purifying respirators	31
6.1	Description	31
6.2	Non-powered respirator filter classification	31
6.2.1	Particle filters	31
6.2.2	Fluid/flammability classification for CA-N-type particle filters	32
6.2.3	Airflow resistance suffix for CA-N95/CA-N95F particle filtering respirators	32
6.2.4	Overview of permitted non-powered air-purifying respirator classifications	32
6.3	Requirements	33
6.3.1	General	33
6.3.2	Airflow resistance	36
6.3.3	Particle filter requirements	36
6.3.4	Non-powered particle filtering respirators with fluid/flammability classification	38
7	Powered air-purifying respirators	39
7.1	Description	39
7.2	Classification of particle filtering powered air purifying respirators	39
7.3	Requirements — Particle filtering powered air purifying respirators	40
7.3.1	General	40
7.3.2	Airflow output	45
7.3.3	Airflow resistance	45

7.3.4	Noise	45
7.3.5	Communication — CA-PAPR100-N and CA-PAPR100-P	45
7.3.6	Warning devices — CA-PAPR100-N and CA-PAPR100-P	46
7.3.7	Flow checking device	46
7.4	Requirements — Components	46
7.4.1	Respiratory interfaces	46
7.4.2	Particle filters	46

8 Operational requirements 50

8.1	General	50
8.2	Performance criteria	50
8.3	Shelf life	50
8.3.1	Shelf life designation	50
8.3.2	Shelf life report for certification purposes	50
8.3.3	Shelf life information to user	50
8.3.4	Shelf life indicating devices	50
8.4	Cleaning of re-usable respirators	51
8.4.1	General	51
8.4.2	Cleaning methods	51
8.5	Assessment of reliability	51

9 Marking 51

9.1	General	51
9.2	Marking respiratory interfaces for non-integrated respirators	52
9.3	Marking on filters and integrated respirators	52
9.3.1	Minimum marking for integrated respirators	52
9.3.2	Minimum marking for replaceable filters	52
9.3.3	Marking colour	52
9.4	Marking on primary packaging	52

10 Information supplied by the manufacturer 53

10.1	General	53
10.2	Minimum information	53
10.2.1	Identifying information	53
10.2.2	Configuration information	53
10.2.3	Storage, selection, donning, and fit testing and pre-use checks	53
10.2.4	Operational information	55
10.2.5	Maintenance information	55
10.2.6	Cleaning	55
10.3	Cautions and limitations	56
10.4	Additional information	56

Annex A (informative) — Test methods 57

Annex B (normative) — Application of uncertainty of measurement 60

Annex C (informative) — Comparison with US Code of Federal Regulations 62

Annex D (informative) — Facial sizing for fit testing 70

Annex E (informative) — Flowcharts to guide selection of clauses for respirator conformance with this Standard 71

Annex F (informative) — Fit test report 75

Technical Committee on Selection, Care, and Use of Respirators
