In case of doubt, the German-language original shall be considered authoritative.

A comma is used as the decimal marker.

Start of application

The start of application of this standard is 2017-12-01.

For DIN EN 1176-6:2008-08 there is a transition period ending on 2018-10-31.

National foreword

This standard includes safety requirements within the meaning of the *Produktsicherheitsgesetz (ProdSG)* (German Product Safety Act).

This document (EN 1176-6:2017+AC:2019) has been prepared by Technical Committee CEN/TC 136 “Sports, playground and other recreational facilities and equipment” (Secretariat: DIN, Germany).

The responsible German body involved in its preparation was *DIN-Normenausschuss Sport- und Freizeitgerät* (DIN Standards Committee Sports Equipment), Working Committee NA 112-07-01 AA “Playground equipment”.

Where this standard has been identified by the *Ausschuss für Produktsicherheit* (German Committee for Product Safety) and reference to it has been published in the *Gemeinsames Ministerialblatt* (German Joint Ministerial Gazette) by the *Bundesanstalt für Arbeitsschutz und Arbeitsmedizin (BAuA)* (German Federal Institute for Occupational Safety and Health), it is to be presumed that rocking equipment which complies with this standard fulfils the relevant health and safety requirements. A transition period which might be specified in the start of application of this document is not a critical factor for the effectiveness of such presumption of conformity.

Amendments

This standard differs from DIN EN 1176-6:2008-08 and DIN EN 1176-6 Corrigendum 1:2008-12 as follows:

- a) equipment of type 2, type 3 and type 4 has not been classified as a forced movement equipment;
- b) for rocking equipment provided for standing use, the falling space has been adapted;
- c) test methods have been revised;
- d) parts of the standards series EN 1176 have been linguistically harmonized with each other;
- e) the standard has been brought in line with the current rules of presentation.

Compared with DIN EN 1176-6:2017-12, the following corrections have been made:

- a) Figures 6 and 7 have been interchanged;
- b) in Clause 6, item a), the date of the reference has been deleted (applies to the German version only).
