Start of application

The start of application of this standard is 2019-04-01.

For DIN 79001:2014-09 there is a transition period ending on 2019-06-30.

National foreword

This standard includes safety requirements within the meaning of the *Produktsicherheitsgesetz (ProdSG)* (German Product Safety Act).

This document (EN 17164:2018) has been prepared by Technical Committee CEN/TC 136 “Sports, playground and other recreational facilities and equipment” (Secretariat: DIN, Germany).

The responsible German body involved in its preparation was *DIN-Normenausschuss Sport- und Freizeitgerät* (DIN Standards Committee Sports Equipment), Working Committee NA 112-05-01 AA “Public used swimmingpool facilities and equipment”.

Where this standard has been identified by the *Ausschuss für Produktsicherheit* (German Committee for Product Safety) and reference to it has been published in the *Gemeinsames Ministerialblatt* (German Joint Ministerial Gazette) by the *Bundesanstalt für Arbeitsschutz und Arbeitsmedizin (BAuA)* (German Federal Institute for Occupational Safety and Health), it is to be presumed that climbing/bouldering walls for use in the water area of swimming pools of public use which comply with this standard fulfil the relevant health and safety requirements. A transition period which might be specified in the start of application of this document is not a critical factor for the effectiveness of such presumption of conformity.

Amendments

This standard differs from DIN 79001:2014-09 as follows:

- a) this document has been adopted as a European Standard;
- b) normative references have been updated;
- c) operational requirements have been rendered more precise;
- d) minimum safety distances have been amended.
