In case of doubt, the German-language original shall be considered authoritative.

A comma is used as the decimal marker.

National foreword

This document (EN 1730:2012) has been prepared by Technical Committee CEN/TC 207 “Furniture”, (Secretariat: UNI, Italy).

The responsible German body involved in its preparation was the *Normenausschuss Holzwirtschaft und Möbel* (Timber and Furniture Standards Committee), NA 042-05 FBR *Fachbereichsbeirat Möbel* (Furniture Section Steering Committee).

The DIN Standard corresponding to the International Standard referred to in this document is as follows:

ISO 7619-2 DIN ISO 7619-2

Amendments

This standard differs from DIN EN 1730:2000-08 as follows:

- a) the standard has been revised in form and substance;
- b) the title and the scope of the standard have been extended to include not only domestic furniture, but all types of tables, viz. for office, school and contract use;
- c) vertical static load tests have been extended;
- d) horizontal durability and stiffness tests have been extended;
- e) testing of the deflection of table tops has been supplemented;
- f) testing of the durability of tables with castors has been supplemented;
- g) stability tests have been extended;
- h) stability tests for tables with extension elements have been supplemented;
- i) stability tests for tables designed to support a parasol have been supplemented;
- j) testing of height adjustment mechanisms has been supplemented;
- k) the standard has been editorially revised.
