Start of application

The start of application of this standard is 2013-12-01.

National foreword

This standard includes safety requirements within the meaning of the *Produktsicherheitsgesetz* (ProdSG) (German Product Safety Act).

Where this standard has been identified by the *Ausschuss für Produktsicherheit* (German Committee for Product Safety) and reference to it has been published in the *Gemeinsames Ministerialblatt* (German Joint Ministerial Gazette) by the *Bundesanstalt für Arbeitsschutz und Arbeitsmedizin (BAuA)* (German Federal Institute for Occupational Safety and Health), it is to be presumed that changing units which comply with this standard fulfil the relevant health and safety requirements.

Where they comply with the provisions laid down in Section 5 of the Product Safety Act, such products may then be marked with the GS mark (German “safety tested” mark) as awarded to the manufacturer by an authorized “GS organization”.

This document (EN 12221-1:2008+A1:2013) has been prepared by Technical Committee CEN/TC 252 “Child use and care articles” (Secretariat: AFNOR, France).

The responsible German body involved in its preparation was the *Normenausschuss Sicherheitstechnische Grundsätze* (Safety Design Principles Standards Committee), Working Committee NA 095-05-03 AA *Artikel für Säuglinge und Kleinkinder – Sitzen, Pflegen, Schützen, Liegen und Transportieren*.

Amendments

This standard differs from DIN EN 12221-1:2008-08 as follows:

- a) the definition of “type 1 changing unit” and “type 2 changing unit” has been added;
- b) normative references have been updated;
- c) the title has been supplemented by “Child use and care articles”.
