About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigendum or an amendment might have been published.

IEC publications search - webstore.iec.ch/advsearchform

The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, replaced and withdrawn publications.

IEC Just Published - webstore.iec.ch/justpublished

Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and once a month by email.

IEC Customer Service Centre - webstore.iec.ch/csc

If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: sales@iec.ch.

Electropedia - www.electropedia.org

The world's leading online dictionary on electrotechnology, containing more than 22 000 terminological entries in English and French, with equivalent terms in 16 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

IEC Glossary - std.iec.ch/glossary

67 000 electrotechnical terminology entries in English and French extracted from the Terms and definitions clause of IEC publications issued between 2002 and 2015. Some entries have been collected from earlier publications of IEC TC 37, 77, 86 and CISPR.

A propos de l'IEC

La Commission Electrotechnique Internationale (IEC) est la première organisation mondiale qui élabore et publie des Normes internationales pour tout ce qui a trait à l'électricité, à l'électronique et aux technologies apparentées.

A propos des publications IEC

Le contenu technique des publications IEC est constamment revu. Veuillez vous assurer que vous possédez l'édition la plus récente, un corrigendum ou amendement peut avoir été publié.

Recherche de publications IEC -

webstore.iec.ch/advsearchform

La recherche avancée permet de trouver des publications IEC en utilisant différents critères (numéro de référence, texte, comité d'études,...). Elle donne aussi des informations sur les projets et les publications remplacées ou retirées.

IEC Just Published - webstore.iec.ch/justpublished

Restez informé sur les nouvelles publications IEC. Just Published détaille les nouvelles publications parues. Disponible en ligne et une fois par mois par email.

Service Clients - webstore.iec.ch/csc

Si vous désirez nous donner des commentaires sur cette publication ou si vous avez des questions contactez-nous: sales@iec.ch.

Electropedia - www.electropedia.org

Le premier dictionnaire d'électrotechnologie en ligne au monde, avec plus de 22 000 articles terminologiques en anglais et en français, ainsi que les termes équivalents dans 16 langues additionnelles. Egalement appelé Vocabulaire Electrotechnique International (IEV) en ligne.

Glossaire IEC - std.iec.ch/glossary

67 000 entrées terminologiques électrotechniques, en anglais et en français, extraites des articles Termes et définitions des publications IEC parues entre 2002 et 2015. Plus certaines entrées antérieures extraites des publications des CE 37, 77, 86 et CISPR de l'IEC.

CONTENTS

FOREWORD	6
INTRODUCTION	9
1 Scope	10
2 Normative references	10
3 Terms, definitions and symbols	10
3.1 General terms and definitions	10
3.2 Terms and definitions related to refrigerating system	12
3.3 Compartments and sections	12
3.4 Physical aspects and dimensions	14
3.5 Terms and definitions relating to performance characteristics	15
3.6 Operating states as shown in Figure 1	18
3.7 Symbols	20
4 Classifications	21
5 Marking	21
5.1 Rating information	21
5.2 Identification of frozen compartments	22
5.3 Load limit lines	22
6 Technical and commercial product information	23
6.1 General	23
6.2 Determination of linear dimensions	23
7 Instructions	24
Annex A (normative) Test room and instrumentation	26
A.1 Scope	26
A.2 Instruments, accuracy and precision of measurements	26
A.2.1 General	26
A.2.2 Electrical energy consumption	26
A.2.3 Humidity	26
A.2.4 Length	26
A.2.5 Mass	26
A.2.6 Temperature	27
A.2.7 Time	27
A.2.8 Voltage and frequency	27
A.3 General test conditions	27
A.3.1 General	27
A.3.2 Ambient temperatures	28
A.3.3 Electricity supply	29
A.3.4 Power supply other than electricity	30
A.3.5 Multiple power supply	30
A.3.6 Humidity	30
A.4 Test room configuration	30
A.4.1 General	30
A.4.2 Platform	30
A.4.3 Rear wall or partition	30
A.4.4 Side partitions	30
A.4.5 Sensor location	31

A.4.6	Test room general configuration	31
Annex B (normative) Preparation of an appliance for testing and general measurement procedures		33
B.1	Scope	33
B.2	Preparation and set-up of appliance.....	33
B.2.1	General	33
B.2.2	Running in of new appliances	33
B.2.3	Installation of the appliance in the test room	33
B.2.4	Combined appliances	35
B.2.5	Setting up	35
B.2.6	Automatic ice makers	37
B.2.7	Pre-test condition	37
Annex C (normative) Test packages		38
C.1	Dimensions and tolerances	38
C.2	Composition.....	38
C.3	M-packages	39
Annex D (normative) Determination of compartment average air temperatures		40
D.1	Scope	40
D.2	Location of sensors.....	40
D.2.1	General	44
D.2.2	Unfrozen compartments	45
D.2.3	Frozen Compartments	45
D.2.4	Equivalent positions and other requirements for all compartment types	46
D.2.5	Consideration of convenience features	49
D.2.1	General	44
D.2.2	Unfrozen compartments.....	45
D.2.3	Frozen compartments	45
D.2.4	Equivalent positions and other requirements for all compartment types	46
D.2.5	Consideration of convenience features	49
D.3	Compartment average air temperatures determination	49
D.3.1	General	49
D.3.2	Determination of the average temperature of a sensor over a period	49
D.3.3	Determination of the temperature of a compartment	49
D.3.4	Calculation of temperature average	49
Annex E (normative) Details of identification symbols		72
Annex F (informative) Items to that may be included in the a test report		74
Annex G (normative) Wine storage appliances.....		90
G.1	Scope	90
G.2	Terms, definitions and symbols	90
G.3	Requirements	90
G.3.1	Required temperature range	90
G.3.2	Maximum temperature fluctuation	90
G.3.3	Vibration	90
G.4	General test conditions	90
G.4.1	General	90
G.4.2	Low ambient temperature	91
G.4.3	Interior parts	91
G.5	Determination of volumes	91

G.5.1	Depth	91
G.5.2	Evaluation of bottle capacity for wine storage compartments	91
G.6	Measurement of storage temperature	92
G.7	Determining temperature fluctuation	95
G.8	Final test report	95
G.9	Marking and instructions	95
G.9.1	Technical and commercial product information	95
G.9.2	Instructions	95
	Bibliography	96
	Figure 1 – Illustration of selected definitions typical refrigerator operations	20
	Figure 2 – Identification symbol for a four-star compartment	22
	Figure 3 – Star identification symbols for frozen compartments (except four-star)	22
	Figure 4 – Marking of load limit	23
	Figure 5 – Linear dimensions (example: top view for upright type)	24
	Figure A.1 – Verification of parameters to be kept constant	28
	Figure A.2 – Partitions to restrict air circulation and ambient temperatures sensor positions	32
	Figure B.1 – Examples of appliances with no spacers where rear clearance is specified	34
	Figure D.1 – Air temperature measuring points – unfrozen compartments with plate or concealed evaporators and effective height and width examples	60
	Figure D.2 – Air temperature measuring points – fresh food, chill and cellar compartments – examples of generic compartments with crisper and convenience features	62
	Figure D.3 – Air temperature measuring points – low height and small compartments	63
	Figure D.4 – Location of temperature sensors within upright frozen compartments without refrigerated shelves and with height equal to or less than 1 000 mm	64
	Figure D.5 – Location of temperature sensors within upright frozen compartments without refrigerated shelves and with height greater than 1 000 mm	65
	Figure D.6 – Location of temperature sensors within upright frozen compartments with refrigerated shelves and with height greater than 1 000 mm	66
	Figure D.7 – location of temperature sensors within chest freezers (1 of 2)	69
	Figure D.8 – Location of temperature sensors within drawers and bins	71
	Figure D.9 – Location of temperature sensors when mirror image is applicable	71
	Figure D.1 – Air-temperature measuring points – unfrozen compartments with plate or concealed evaporators and effective height and width examples (all front views)	60
	Figure D.2 – Air-temperature measuring points – unfrozen compartments	62
	Figure D.3 – Air-temperature measuring points – small (sub-)compartments and low-height (sub-)compartments	63
	Figure D.4 – Location of temperature sensors within upright frozen compartments without refrigerated shelves and with height equal to or less than 1 000 mm	64
	Figure D.5 – Location of temperature sensors within upright frozen compartments without refrigerated shelves and with height greater than 1 000 mm	65
	Figure D.6 – Location of temperature sensors within upright frozen compartments with refrigerated shelves and with height greater than 1 000 mm	66
	Figure D.7 – Location of temperature sensors within chest freezers	69
	Figure D.8 – Location of temperature sensors within drawers and bins	71

Figure D.9 – Location of temperature sensors when mirror image is applicable.....	71
Figure E.1 – Details of identification symbols for four-star compartments.....	72
Figure E.2 – Details of identification symbols for frozen compartments (except four- star).....	73

INTERNATIONAL ELECTROTECHNICAL COMMISSION

**HOUSEHOLD REFRIGERATING APPLIANCES –
CHARACTERISTICS AND TEST METHODS –****Part 1: General requirements****FOREWORD**

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as “IEC Publication(s)”). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

This consolidated version of the official IEC Standard and its amendment has been prepared for user convenience.

IEC 62552-1 edition 1.1 contains the first edition (2015-02) [documents 59M/61/FDIS and 59M/64/RVD] and its amendment 1 (2020-11) [documents 59M/126/FDIS and 59M/132/RVD].

In this Redline version, a vertical line in the margin shows where the technical content is modified by amendment 1. Additions are in green text, deletions are in strikethrough red text. A separate Final version with all changes accepted is available in this publication.
