Ball point pens and refills

ICS 97.180

Reference number : JIS S 6039 : 2006 (E)

Foreword

This translation has been made based on the original Japanese Industrial Standard revised by the Minister of Economy, Trade and Industry through deliberations at the Japanese Industrial Standards Committee as the result of proposal for revision of Japanese Industrial Standard submitted by Japan Writing Instrument Manufacturers Association (JWIMA)/Japanese Standards Association (JSA) with the draft being attached, based on the provision of Article 12 Clause 1 of the Industrial Standardization Law applicable to the case of revision by the provision of Article 14.

Consequently **JIS S 6039:2000** is replaced with this Standard.

This revision has been made based on **ISO 12757-1:1998** *Ball point pens and refills—Part 1: General use* and **ISO 12757-2:1998** *Ball point pens and refills—Part 2: Documentary use (DOC)* for the purposes of making it easier to compare this Standard with International Standards; to prepare Japanese Industrial Standard conforming with International Standards; and to propose a draft of an International Standard which is based on Japanese Industrial Standard.

Attention is drawn to the possibility that some parts of this Standard may conflict with a patent right, application for a patent after opening to the public, utility model right or application for registration of utility model after opening to the public which have technical properties. The relevant Minister and the Japanese Industrial Standards Committee are not responsible for identifying the patent right, application for a patent after opening to the public, utility model right or application for registration of utility model after opening to the public which have the said technical properties.

Date of Establishment: 1963-03-01

Date of Revision: 2006-03-25

Date of Public Notice in Official Gazette: 2006-03-27
