JAPANESE INDUSTRIAL STANDARD

J I S

Tables for conference (Office furniture)

S 1041-1992

1. Scope This Japanese Industrial Standard specifies the tables for conference (office furniture), hereinafter referred to as the "tables".

- Remarks 1. The table which is specified in this Standard is composed of the main member materials such as top board, legs, etc. and it includes the folding type and assembling type.
2. The standards shown in the Attached Table 1 are cited in this Standard.
3. The units and numerical values given in { } in this Standard are based on the traditional unit system and appended for informative reference.

2. Quality

2.1 Appearance The appearance shall be as follows:

- (1) The finishing of appearance shall be fine and shall be free from remarkable defect such as slipping out and the like at the jointing part.
- (2) There shall not be any sharp protrusion or angle at the part to which the human body and clothes are touchable.
- (3) The back side of painted surface shall be uniform in luster and tone, and be free from coating unevenness, sagging, etc.

2.2 Performance The performance shall be that the tests specified in Clause 6 are performed and the results conform to the specification in Table 1.
